Wake up:

You're a fu*king miracle of being

What's standing in the way of you living your best life? Most people would reference things like relationships with other people, money, their job, or unfortunate circumstances. None of these explanations make any difference. Through decades of working with people as a personal development coach, Gary John Bishop has discovered that the barrier is one thing only: you. If you're easily offended, stop reading now. This isn't the book for you.

But if you're looking for a book that gives you the power to find everything you ever wanted residing within you like a well of potential, waiting to be expressed, you're in luck. *Unfu*k Yourself* is the handbook for the resigned and defeated, a manifesto for real life change and unleashing your own greatness.

GARY JOHN BISHOP

is one of the leading personal development experts in the industry. His "urban philosophy" approach represents a new wave of personal empowerment and life mastery that has provided miraculous results for people in the quality and performance of their lives.
